

AMENDMENTS TO THE CLAIMS

Please cancel Claims 1-5 and 17; and add new Claims 18-20 as follows.

LISTING OF CLAIMS

1.-17. (cancelled)

18. (new) A client server system for supplying information to a mobile phone through a provider's server administered by a telephone service provider, the client server system comprising:

an exclusive server storing information including specified information;

means for specifying the mobile phone by a code identifying a maker of the mobile phone, the code being sent from the mobile phone to the exclusive server through the provider's server, an IP address identifying the provider being sent from the provider to the exclusive server together with the code identifying the maker of the mobile phone; and

means for supplying the specified information stored in the exclusive server to the mobile phone, the specified information being supplied only when the code identifying the mobile phone maker and the IP address identifying the provider are justified as authorized ones.

19. (new) The client server system as in claim 18, wherein:

a data format consisting of a header field having a predetermined format and a data field in which data are arbitrarily written is sent from the provider's server to the exclusive server; and

at least the code identifying the mobile phone maker is contained in the data field.

20. (new) The client server system as in claim 18, wherein:
the information stored in the exclusive server includes public information which is available to both the specified mobile phone and public.
